22 April 1975

MEMORANDUM

SUBJECT: Executive Council Meeting on 22 April 1975

STAT Mr. Walsh chaired. [redacted] substituted.

1. There were 5 security violations in March, one more than in February, but below the March level for the past 2 years.

2. Mr. Walsh said that the Director has asked once again for employees knowing of questionable activities that have not already been brought to his attention to report these activities no later than 1 May. Any such information or a negative report should be

STAT forwarded to [redacted]

STAT [redacted] STAT

5. Contrary to earlier expectations, the Agency probably will be over its personnel ceiling by about 40 persons at the beginning of FY-76. As a result, the voluntary-involuntary option will probably be made available beginning some time in May. DDO, meanwhile, will have major problems reassigning Vietnamese returnees. It is possible that the Agency will simply lose the Vietnam slots.

STAT 6. In response to Mr. Thuermer's request for copies of unclassified publications, [redacted] has arranged to provide him with quarterly lists of unclassified documents that have been made available to DOCEX. Mr. Thuermer will then send the list to some 75 media-related offices.

7. Mr. Proctor reported on his session with the Rockefeller Commission. He said that the meeting, which was conducted informally and in a very informal setting, went very well. The staff and Commission members Griswold and Lemnitzer explored a large number of questions including detente, the domino theory, standards for selecting the DCI and DDCI, White House influence over intelligence analysis, and the adequacy of internal controls.
